Index of Subjects

Acetylation
Acetylation of peptides inhibits their degradation by rumen micro-organisms. **68**, 365, 1992

Amino acids
Splanchnic fluxes of amino acids after duodenal infusion of carbohydrate solutions containing free amino acids or oligopeptides in the non-anaesthetized pig. **68**, 111, 1992
The effects of feed intake and purified cellulose on the endogenous ileal amino acid flow in growing pigs. **68**, 463, 1992

Anaemia
Effects of an iron supplementation trial on the Fe status of Thai schoolchildren. **68**, 245, 1992
Dietary iron deficiency and sports anaemia. **68**, 253, 1992
Influence of ascorbic acid supplementation on copper metabolism in rats. **68**, 701, 1992

Animal model
Production of chickens with marginal vitamin A deficiency. **68**, 283, 1992

Anorexia
Influence of low dietary lipid content on anorexia and [^{14}C]glucose uptake in the intestine of zinc-deficient mice. **68**, 505, 1992

Anorexia nervosa
Alterations in endothelium-associated proteins and serum thyroid hormone concentrations in anorexia nervosa. **68**, 67, 1992

Anti-nutritional effects
Nutritional evaluation of the trypsin (*EC* 3.4.21.4) inhibitor from cowpea (*Vigna unguiculata* Walp.). **68**, 783, 1992

Apolipoproteins
Replacement of dietary fat with palm oil: effect on human serum lipids, lipoproteins and apolipoproteins. **68**, 677, 1992

Apparent digestibility
Gastrointestinal implications in the rat of wheat bran, oat bran and pea fibre. **68**, 451, 1992

L-Arabinose
Nutritional implications of L-arabinose in pigs. **68**, 195, 1992

Atherosclerosis
Some determinants of postprandial lipaemia in Nigerian diabetic and non-diabetic subjects. **68**, 153, 1992

Athletes
Dietary iron deficiency and sports anaemia. **68**, 253, 1992

ATPase
In vitro lipid metabolism, growth and metabolic hormone concentrations in hyperthyroid chickens. **68**, 667, 1992

Banana
Hypocholesterolaemic effect of banana (*Musa sapientum* L. var. Cavendishii) pulp in the rat fed on a cholesterol-containing diet. **68**, 231, 1992

Basal metabolic rate
Energy supplementation reverses changes in the basal metabolic rates of chronically undernourished individuals. **68**, 593, 1992

Biliary secretion
Adaptation of biliary response to dietary olive oil and sunflower-seed oil in dogs. **68**, 175, 1992

Bioavailability
Bioavailability of energy, nitrogen, fat, zinc, iron and calcium from rural and urban Mexican diets. **68**, 45, 1992
Bioavailability of magnesium and calcium from cow's milk and soya-bean beverage in rats. **68**, 271, 1992

Blood variables
Effect of ileo-rectal anastomosis and post-valve T-caecum cannulation on growing pigs. 2. Blood variables and mineral balances. **68**, 305, 1992

Body composition
Long-term effect of physical activity on energy balance and body composition. **68**, 21, 1992
Energy supplementation reverses changes in the basal metabolic rates of chronically undernourished individuals. **68**, 593, 1992
The effects of varying protein and energy intakes on the growth and body composition of pigs. 1. The effects of energy intake at constant, high protein intake. **68**, 603, 1992
The effects of varying protein and energy intakes on the growth and body composition of pigs. 2. The effects of varying both energy and protein intake. **68**, 615, 1992

Body fat
Dietary protein level alters oxidative phosphorylation in heart and liver mitochondria of chicks. **68**, 89, 1992

Bone
Comparison of the effects of cassava (*Manihot esculenta Crantz*) organic cyanide and inorganic cyanide on muscle and bone development in a Nigerian breed of dog. **68**, 483, 1992

Breeding
The digestibility in piglets of faba bean (*Vicia faba* L.) as affected by breeding towards the absence of condensed tannins. **68**, 793, 1992

Broiler chicks
Compensatory growth in broiler chicks fed on *Lemna gibba*. **68**, 329, 1992
Evaluation of the nutritive value of yellow rice in rats and broiler chicks. **68**, 573, 1992

Brown adipose tissue
Changes in insulin-receptor mRNA levels in skeletal muscle and brown adipose tissue of weanling rats during fasting and refeeding. **68**, 583, 1992

Caecal fermentation
The effects of ispaghula on rat caecal fermentation and stool output. **68**, 473, 1992

Calcium
Effect of casein, casein phosphopeptides and calcium intake of ileal ^{45}Ca disappearance and temporal systolic blood pressure in spontaneously hypertensive rats. **68**, 765, 1992
Carotenoids
Efficacy of massive oral doses of retinyl palmitate and mango (*Mangifera indica* L.) consumption to correct an existing vitamin A deficiency in Senegalese children. **68**, 529, 1992
Caseinophosphopeptides
Effect of casein, casein phosphopeptides and calcium intake of ileal ^{45}Ca disappearance and temporal systolic blood pressure in spontaneously hypertensive rats. **68**, 765, 1992
Children
Nutritional intake, height and weight of 11–12-year-old Northumbrian children in 1990 compared with information obtained in 1980. **68**, 543, 1992
Cholesterol
Relationship between structure and function of dietary fibre: a comparative study of the effects of three galactomannans on cholesterol metabolism in the rat. **68**, 217, 1992
The cholesterol-raising effect of coffee in the Syrian hamster. **68**, 431, 1992
Chromium
Chromium supplementation in impaired glucose tolerance of elderly: effects on blood glucose, plasma insulin, C-peptide and lipid levels. **68**, 209, 1992
Chronic undernutrition
Energy supplementation reverses changes in the basal metabolic rates of chronically undernourished individuals. **68**, 593, 1992
Coffee
The cholesterol-raising effect of coffee in the Syrian hamster. **68**, 431, 1992
Colonic metabolism
The effect of weaning diet on the subsequent colonic metabolism of dietary fibre in the adult rat. **68**, 741, 1992
Common beans
True protein digestibility and amounts of endogenous protein measured with the ^{15}N-dilution technique in piglets fed on peas (*Pisum sativum*) and common beans (*Phaseolus vulgaris*). **68**, 101, 1992
Compensatory growth
Compensatory growth in broiler chicks fed on *Lemna gibba*. **68**, 329, 1992
Components of variance
Inter- and intra-individual variability in food intake of elderly people in Perugia (Italy). **68**, 3, 1992
Condensed tannins
The digestibility in piglets of faba bean (*Vicia faba* L.) as affected by breeding towards the absence of condensed tannins. **68**, 793, 1992
Conventional Indian meals
Glycaemic index of conventional carbohydrate meals. **68**, 445, 1992
Copper
Lipid composition and fluidity of the erythrocyte membrane in copper-deficient rats. **68**, 435, 1992
Influence of ascorbic acid supplementation on copper metabolism in rats. **68**, 701, 1992
Coronary risk factors
The influence of a fish oil high in docosahexaenoic acid on plasma liproprotein and vitamin E concentrations and haemostatic function in healthy male volunteers. **68**, 163, 1992
Corpus Striatum
Changes in neurotransmitter levels associated with the deficiency of some essential amino acids in the diet. **68**, 409, 1992
Cowpea
Nutritional evaluation of the trypsin (*EC* 3.4.21.4) inhibitor from cowpea (*Vigna unguiculata* Walp.). **68**, 783, 1992
Cow's milk
Bioavailability of magnesium and calcium from cow's milk and soya-bean beverage in rats. **68**, 271, 1992
C-Peptide
Chromium supplementation in impaired glucose tolerance of elderly: effects on blood glucose, plasma insulin, C-peptide and lipid levels. **68**, 209, 1992
Cyanide
Comparison of the effects of cassava (*Manihot esculenta Crantz*) organic cyanide and inorganic cyanide on muscle and bone development in a Nigerian breed of dog. **68**, 483, 1992
Cystathionase
Impairment of cysteine synthesis from methionine in rats exposed to surgical stress. **68**, 421, 1992
L-Cysteine
Impairment of cysteine synthesis from methionine in rats exposed to surgical stress. **68**, 421, 1992
Deer
Effects of subcutaneous melatonin implants during long daylength on voluntary feed intake, rumen capacity and heart rate of red deer (*Cervus elaphus*) fed on a forage diet. **68**, 77, 1992
Diabetes mellitus
Some determinants of postprandial lipaemia in Nigerian diabetic and non-diabetic subjects. **68**, 153, 1992
Glycaemic index of conventional carbohydrate meals. **68**, 445, 1992
Dietary changes
Nutritional intake, height and weight of 11–12-year-old Northumbrian children in 1990 compared with information obtained in 1980. **68**, 543, 1992
Dietary fibre
Bioavailability of energy, nitrogen, fat, zinc, iron and calcium from rural and urban Mexican diets. **68**, 45, 1992
Relationship between structure and function of dietary fibre: a comparative study of the effects of three galactomannans on cholesterol metabolism in the rat. **68**, 217, 1992
Hypocholesterolaemic effect of banana (*Musa sapientum* L. var. Cavendishii) pulp in the rat fed on a cholesterol-containing diet. **68**, 231, 1992
Gastrointestinal implications in the rat of wheat bran, oat bran and pea fibre. **68**, 451, 1992

The effect of weaning diet on the subsequent colonic metabolism of dietary fibre in the adult rat. **68**, 741, 1992

Dietary modifications
Modifying diets to satisfy nutritional requirements using linear programming. **68**, 565, 1992

Dietary response
Replacement of dietary fat with palm oil: effect on human serum lipids, lipoproteins and apolipoproteins. **68**, 677, 1992

Dietary surveys
Inter- and intra-individual variability in food intake of elderly people in Perugia (Italy). **68**, 3, 1992

Digestibility
The digestibility in piglets of faba bean (*Vicia faba* L.) as affected by breeding towards the absence of condensed tannins. **68**, 793, 1992

Digestion
Nutritional implications of L-arabinose in pigs. **68**, 195, 1992

Duckweed
Compensatory growth in broiler chicks fed on *Lemna gibba*. **68**, 329, 1992

Early weaning
The intake, digestion and protein degradation of grazed herbage by early-weaned lambs. **68**, 349, 1992

Editorial
A wider view of nutrition. **68**, 1, 1992
Directions to Contributors. **68**, 317, 1992
Directions to Contributors: stylistic matters. **68**, 541, 1992

Elderly
Inter- and intra-individual variability in food intake of elderly people in Perugia (Italy). **68**, 3, 1992

Endogenous ileal flow
The effects of feed intake and purified cellulose on the endogenous ileal amino acid flow in growing pigs. **68**, 463, 1992

Endogenous protein
True protein digestibility and amounts of endogenous protein measured with the ^{15}N-dilution technique in piglets fed on peas (*Pisum sativum*) and common beans (*Phaseolus vulgaris*). **68**, 101, 1992

Endothelium-associated proteins
Alterations in endothelium-associated proteins and serum thyroid hormone concentrations in anorexia nervosa. **68**, 67, 1992

Energy balance
Long-term effect of physical activity on energy balance and body composition. **68**, 21, 1992

Energy expenditure
The effect of environmental temperature and humidity on 24 h energy expenditure in men. **68**, 319, 1992

Energy intake
Differences in energy metabolism between normal weight 'large-eating' and 'small-eating' women. **68**, 31, 1992
The effects of varying protein and energy intakes on the growth and body composition of pigs. 1. The effects of energy intake at constant, high protein intake. **68**, 603, 1992
The effects of varying protein and energy intakes on the growth and body composition of pigs. 2. The effects of varying both energy and protein intake. **68**, 615, 1992

Energy metabolism
Differences in energy metabolism between normal weight 'large-eating' and 'small-eating' women. **68**, 31, 1992

Energy supplementation
Energy supplementation reverses changes in the basal metabolic rates of chronically undernourished individuals. **68**, 593, 1992

Erythrocyte membranes
Lipid composition and fluidity of the erythrocyte membrane in copper-deficient rats. **68**, 435, 1992

Excretion
Nutritional implications of L-arabinose in pigs. **68**, 195, 1992

Faba bean
The digestibility in piglets of faba bean (*Vicia faba* L.) as affected by breeding towards the absence of condensed tannins. **68**, 793, 1992

Faecal bulking
Gastrointestinal implications in the rat of wheat bran, oat bran and pea fibre. **68**, 451, 1992

Faecal digestibility
Evaluation of inert markers for the determination of ileal and faecal apparent digestibility values in the pig. **68**, 729, 1992

Fat intake
The influence of a fish oil high in docosahexaenoic acid on plasma liproprotein and vitamin E concentrations and haemostatic function in healthy male volunteers. **68**, 163, 1992
Adaptation of biliary response to dietary olive oil and sunflower-seed oil in dogs. **68**, 175, 1992
Influence of low dietary lipid content on anorexia and [^{14}C]glucose uptake in the intestine of zinc-deficient mice. **68**, 505, 1992

Fatty acids
Effect of dietary fatty acid composition on inositol-, choline- and ethanolamine-phospholipids of mammary tissue and erythrocytes in the rat. **68**, 183, 1992

Fish oil
The influence of a fish oil high in docosahexaenoic acid on plasma liproprotein and vitamin E concentrations and haemostatic function in healthy male volunteers. **68**, 163, 1992

Food intake
Diet among oil-workers on off-shore oil installations in the Norwegian sector of the North Sea. **68**, 11, 1992
Effect of food intake on hind-limb and whole-body protein metabolism in young growing sheep: chronic studies based on arterio-venous techniques. **68**, 389, 1992

Galactomannans
Relationship between structure and function of dietary fibre: a comparative study of the effects of three galactomannans on cholesterol metabolism in the rat. **68**, 217, 1992

Gastric emptying
Different effects of casein and soybean protein on

gastric emptying of protein and small intestinal transit after spontaneous feeding of diets in rats. **68**, 59, 1992

Glucose
Splanchnic fluxes of amino acids after duodenal infusion of carbohydrate solutions containing free amino acids or oligopeptides in the non-anaesthetized pig. **68**, 111, 1992
Influence of low dietary lipid content on anorexia and [^{14}C]glucose uptake in the intestine of zinc-deficient mice. **68**, 505, 1992
Effects of guar gum and cellulose on glucose absorption, hormonal release and hepatic metabolism in the pig. **68**, 693, 1992

Glutathione peroxidase
Selenium content of wheat for bread making in Scotland and the relationship between glutathione peroxidase (*EC* 1.11.1.9) levels in whole blood and bread consumption. **68**, 261, 1992

Glycaemic response
Glycaemic index of conventional carbohydrate meals. **68**, 445, 1992

Grazing intake
The intake, digestion and protein degradation of grazed herbage by early-weaned lambs. **68**, 349, 1992

Growth
Comparison of the effects of cassava (*Manihot esculenta Crantz*) organic cyanide and inorganic cyanide on muscle and bone development in a Nigerian breed of dog. **68**, 483, 1992
Nutritional outcome and immunocompetence in mice fed on a diet containing field beans (*Vicia faba*, var. minor) as the source of protein. **68**, 493, 1992

Growth performance
Effect of ileo-rectal anastomosis and post-valve T-caecum cannulation on growing pigs. 1. Growth performance, N-balance and intestinal adaptation. **68**, 293, 1992

Guar gum
Effects of guar gum and cellulose on glucose absorption, hormonal release and hepatic metabolism in the pig. **68**, 693, 1992

Hind-limb protein metabolism
Effect of food intake on hind-limb and whole-body protein metabolism in young growing sheep: chronic studies based on arterio-venous techniques. **68**, 389, 1992

Humidity
The effect of environmental temperature and humidity on 24 h energy expenditure in men. **68**, 319, 1992

Hypocholesterolaemic effect
Hypocholesterolaemic effect of banana (*Musa sapientum* L. var. Cavendishii) pulp in the rat fed on a cholesterol-containing diet. **68**, 231, 1992

IGF-1
Effects of guar gum and cellulose on glucose absorption, hormonal release and hepatic metabolism in the pig. **68**, 693, 1992

Ileal digestibility
Evaluation of inert markers for the determination of ileal and faecal apparent digestibility values in the pig. **68**, 729, 1992

Ileo-rectal anastomosis
Effect of ileo-rectal anastomosis and post-valve T-caecum cannulation on growing pigs. 1. Growth performance, N-balance and intestinal adaptation. **68**, 293, 1992
Effect of ileo-rectal anastomosis and post-valve T-caecum cannulation on growing pigs. 2. Blood variables and mineral balances. **68**, 305, 1992

Immunocompetence
Nutritional outcome and immunocompetence in mice fed on a diet containing field beans (*Vicia faba*, var. minor) as the source of protein. **68**, 493, 1992

Immunoglobulins
Effect of vitamin A deficiency and Newcastle disease virus infection on IgA and IgM secretion in chickens. **68**, 753, 1992

Impaired glucose tolerance
Chromium supplementation in impaired glucose tolerance of elderly: effects on blood glucose, plasma insulin, C-peptide and lipid levels. **68**, 209, 1992

Impression cytology
Efficacy of massive oral doses of retinyl palmitate and mango (*Mangifera indica* L.) consumption to correct an existing vitamin A deficiency in Senegalese children. **68**, 529, 1992

Indirect calorimetry
Differences in energy metabolism between normal weight 'large-eating' and 'small-eating' women. **68**, 31, 1992

Inert markers
Evaluation of inert markers for the determination of ileal and faecal apparent digestibility values in the pig. **68**, 729, 1992

Insulin
Chromium supplementation in impaired glucose tolerance of elderly: effects on blood glucose, plasma insulin, C-peptide and lipid levels. **68**, 209, 1992
Effects of guar gum and cellulose on glucose absorption, hormonal release and hepatic metabolism in the pig. **68**, 693, 1992

Insulin-receptor mRNA
Changes in insulin-receptor mRNA levels in skeletal muscle and brown adipose tissue of weanling rats during fasting and refeeding. **68**, 583, 1992

Intestinal absorption
Splanchnic fluxes of amino acids after duodenal infusion of carbohydrate solutions containing free amino acids or oligopeptides in the non-anaesthetized pig. **68**, 111, 1992

Iron
Effects of an iron supplementation trial on the Fe status of Thai schoolchildren. **68**, 245, 1992
Dietary iron deficiency and sports anaemia. **68**, 253, 1992

Isotope labelling
A study of whole-body isotope dilution of [^{14}C]ascorbic acid in guinea-pigs with graded ascorbate intakes. **68**, 711, 1992

Ispaghula
The effects of ispaghula on rat caecal fermentation and stool output. **68**, 473, 1992
Lemna gibba
Compensatory growth in broiler chicks fed on *Lemna gibba*. **68**, 329, 1992
Letters to the Editor.
68, 801, 1992
α-Linolenic acid
Replacement of butter on bread by rapeseed oil and rapeseed-oil-containing margarine: effects on plasma fatty acid composition and serum cholesterol. **68**, 639, 1992
Lipogenesis
In vitro lipid metabolism, growth and metabolic hormone concentrations in hyperthyroid chickens. **68**, 667, 1992
Lipoproteins
Some determinants of postprandial lipaemia in Nigerian diabetic and non-diabetic subjects. **68**, 153, 1992
The cholesterol-raising effect of coffee in the Syrian hamster. **68**, 431, 1992
Replacement of dietary fat with palm oil: effect on human serum lipids, lipoproteins and apolipoproteins. **68**, 677, 1992
Liver and heart mitochondria
Dietary protein level alters oxidative phosphorylation in heart and liver mitochondria of chicks. **68**, 89, 1992
Liver lipids
Depletion of Δ9 desaturase (*EC* 1.14.99.5) enzyme activity in growing rat during dietary protein restriction. **68**, 627, 1992
Liver metabolism
Splanchnic fluxes of amino acids after duodenal infusion of carbohydrate solutions containing free amino acids or oligopeptides in the non-anaesthetized pig. **68**, 111, 1992
Effects of guar gum and cellulose on glucose absorption, hormonal release and hepatic metabolism in the pig. **68**, 693, 1992
Macronutrients
Bioavailability of energy, nitrogen, fat, zinc, iron and calcium from rural and urban Mexican diets. **68**, 45, 1992
Malnutrition
Changes in neurotransmitter levels associated with the deficiency of some essential amino acids in the diet. **68**, 409, 1992
Mammary tissue
Effect of dietary fatty acid composition on inositol-, choline- and ethanolamine-phospholipids of mammary tissue and erythrocytes in the rat. **68**, 183, 1992
Maternal diet
Effects of repeated gestation and lactation on milk *n*-6 fatty acid composition in rats fed on a diet rich in 18:2 *n*-6 or 18:3 *n*-6. **68**, 337, 1992
Mathematically constructed diets
Modifying diets to satisfy nutritional requirements using linear programming. **68**, 565, 1992
Melatonin
Effects of subcutaneous melatonin implants during long daylength on voluntary feed intake, rumen capacity and heart rate of red deer (*Cervus elaphus*) fed on a forage diet. **68**, 77, 1992
Membrane biochemistry
Lipid composition and fluidity of the erythrocyte membrane in copper-deficient rats. **68**, 435, 1992
Metabolic efficiency
Energy supplementation reverses changes in the basal metabolic rates of chronically undernourished individuals. **68**, 593, 1992
Metabolic hormones
Effects of *n*-3 fatty acids on postprandial triacylglycerol and hormone concentrations in normal subjects. **68**, 655, 1992
Methionine
Valine oxidation: the synthesis and evaluation of L-[3-^{3}H]valine as a tracer in vivo. **68**, 139, 1992
Impairment of cysteine synthesis from methionine in rats exposed to surgical stress. **68**, 421, 1992
Mexico
Bioavailability of energy, nitrogen, fat, zinc, iron and calcium from rural and urban Mexican diets. **68**, 45, 1992
Microsomal desaturation
Depletion of Δ9 desaturase (*EC* 1.14.99.5) enzyme activity in growing rat during dietary protein restriction. **68**, 627, 1992
Milk
Effects of repeated gestation and lactation on milk *n*-6 fatty acid composition in rats fed on a diet rich in 18:2 *n*-6 or 18:3 *n*-6. **68**, 337, 1992
Mineral balance
Effect of ileo-rectal anastomosis and post-valve T-caecum cannulation on growing pigs. 2. Blood variables and mineral balances. **68**, 305, 1992
Minerals
Bioavailability of energy, nitrogen, fat, zinc, iron and calcium from rural and urban Mexican diets. **68**, 45, 1992
Monoamines
Changes in neurotransmitter levels associated with the deficiency of some essential amino acids in the diet. **68**, 409, 1992
Muscle
Comparison of the effects of cassava (*Manihot esculenta Crantz*) organic cyanide and inorganic cyanide on muscle and bone development in a Nigerian breed of dog. **68**, 483, 1992
N balance
Effect of ileo-rectal anastomosis and post-valve T-caecum cannulation on growing pigs. 1. Growth performance, N-balance and intestinal adaptation. **68**, 293, 1992
Neutrophils
Erythrocytes, erythrocyte membranes, neutrophils and platelets as biopsy materials for the assessment of zinc status in humans. **68**, 515, 1992
Newcastle disease
Effect of vitamin A deficiency and Newcastle disease virus infection on IgA and IgM secretion in chickens. **68**, 753, 1992

Non-insulin-dependent diabetes
Some determinants of postprandial lipaemia in Nigerian diabetic and non-diabetic subjects. **68**, 153, 1992
Non-starch polysaccharides
Gastrointestinal implications in the rat of wheat bran, oat bran and pea fibre. **68**, 451, 1992
North Sea
Diet among oil-workers on off-shore oil installations in the Norwegian sector of the North Sea. **68**, 11, 1992
Nutrient intake
The intake, digestion and protein degradation of grazed herbage by early-weaned lambs. **68**, 349, 1992
Nutrient requirements
Modifying diets to satisfy nutritional requirements using linear programming. **68**, 565, 1992
Nutrition survey
Nutritional intake, height and weight of 11–12-year-old Northumbrian children in 1990 compared with information obtained in 1980. **68**, 543, 1992
Nutritional status
Nutritional outcome and immunocompetence in mice fed on a diet containing field beans (*Vicia faba*, var. minor) as the source of protein. **68**, 493, 1992
Nutritive value
Evaluation of the nutritive value of yellow rice in rats and broiler chicks. **68**, 573, 1992
Oil workers
Diet among oil-workers on off-shore oil installations in the Norwegian sector of the North Sea. **68**, 11, 1992
Oral retinyl palmitate
Efficacy of massive oral doses of retinyl palmitate and mango (*Mangifera indica* L.) consumption to correct an existing vitamin A deficiency in Senegalese children. **68**, 529, 1992
Oxidative phosphorylation
Dietary protein level alters oxidative phosphorylation in heart and liver mitochondria of chicks. **68**, 89, 1992
Palm oil
Replacement of dietary fat with palm oil: effect on human serum lipids, lipoproteins and apolipoproteins. **68**, 677, 1992
Peas
True protein digestibility and amounts of endogenous protein measured with the ^{15}N-dilution technique in piglets fed on peas (*Pisum sativum*) and common beans (*Phaseolus vulgaris*). **68**, 101, 1992
Peripheral metabolism
Splanchnic fluxes of amino acids after duodenal infusion of carbohydrate solutions containing free amino acids or oligopeptides in the non-anaesthetized pig. **68**, 111, 1992
Phenotypes
Replacement of dietary fat with palm oil: effect on human serum lipids, lipoproteins and apolipoproteins. **68**, 677, 1992
Phospholipids
Effect of dietary fatty acid composition on inositol-, choline- and ethanolamine-phospholipids of mammary tissue and erythrocytes in the rat. **68**, 183, 1992
Physical activity
Long-term effect of physical activity on energy balance and body composition. **68**, 21, 1992
Phytate
Erythrocytes, erythrocyte membranes, neutrophils and platelets as biopsy materials for the assessment of zinc status in humans. **68**, 515, 1992
Plantago ovata
The effects of ispaghula on rat caecal fermentation and stool output. **68**, 473, 1992
Plasma fatty acids
Replacement of butter on bread by rapeseed oil and rapeseed-oil-containing margarine: effects on plasma fatty acid composition and serum cholesterol. **68**, 639, 1992
Platelets
Erythrocytes, erythrocyte membranes, neutrophils and platelets as biopsy materials for the assessment of zinc status in humans. **68**, 515, 1992
Polyunsaturated fatty acids
The influence of a fish oil high in docosahexaenoic acid on plasma liproprotein and vitamin E concentrations and haemostatic function in healthy male volunteers. **68**, 163, 1992
Effects of repeated gestation and lactation on milk *n*-6 fatty acid composition in rats fed on a diet rich in 18:2 *n*-6 or 18:3 *n*-6. **68**, 337, 1992
Effects of *n*-3 fatty acids on postprandial triacylglycerol and hormone concentrations in normal subjects. **68**, 655, 1992
Postprandial triacylglycerols
Effects of *n*-3 fatty acids on postprandial triacylglycerol and hormone concentrations in normal subjects. **68**, 655, 1992
Post-valve T-caecum cannulation
Effect of ileo-rectal anastomosis and post-valve T-caecum cannulation on growing pigs. 1. Growth performance, N-balance and intestinal adaptation. **68**, 293, 1992
Effect of ileo-rectal anastomosis and post-valve T-caecum cannulation on growing pigs. 2. Blood variables and mineral balances. **68**, 305, 1992
Protein intake
Different effects of casein and soybean protein on gastric emptying of protein and small intestinal transit after spontaneous feeding of diets in rats. **68**, 59, 1992
Dietary protein level alters oxidative phosphorylation in heart and liver mitochondria of chicks. **68**, 89, 1992
Responses in tissue protein synthesis to sub- and supra-maintenance intake in young growing sheep: comparison of large-dose and continuous-infusion techniques. **68**, 373, 1992
The effects of varying protein and energy intakes on the growth and body composition of pigs. 1. The effects of energy intake at constant, high protein intake. **68**, 603, 1992
The effects of varying protein and energy intakes on the growth and body composition of pigs. 2. The

effects of varying both energy and protein intake. **68**, 615, 1992
In vitro lipid metabolism, growth and metabolic hormone concentrations in hyperthyroid chickens. **68**, 667, 1992

Protein restriction
Depletion of Δ9 desaturase (*EC* 1.14.99.5) enzyme activity in growing rat during dietary protein restriction. **68**, 627, 1992

Protein retention
The effects of varying protein and energy intakes on the growth and body composition of pigs. 1. The effects of energy intake at constant, high protein intake. **68**, 603, 1992
The effects of varying protein and energy intakes on the growth and body composition of pigs. 2. The effects of varying both energy and protein intake. **68**, 615, 1992

Protein synthesis
Effect of food intake on hind-limb and whole-body protein metabolism in young growing sheep: chronic studies based on arterio-venous techniques. **68**, 389, 1992

Protein utilization
The effects of varying protein and energy intakes on the growth and body composition of pigs. 1. The effects of energy intake at constant, high protein intake. **68**, 603, 1992
The effects of varying protein and energy intakes on the growth and body composition of pigs. 2. The effects of varying both energy and protein intake. **68**, 615, 1992

Recommended dietary allowances
Dietary iron deficiency and sports anaemia. **68**, 253, 1992
Selenium content of wheat for bread making in Scotland and the relationship between glutathione peroxidase (*EC* 1.11.1.9) levels in whole blood and bread consumption. **68**, 261, 1992

Rumen capacity
Effects of subcutaneous melatonin implants during long daylength on voluntary feed intake, rumen capacity and heart rate of red deer (*Cervus elaphus*) fed on a forage diet. **68**, 77, 1992

Rumen peptide breakdown
Acetylation of peptides inhibits their degradation by rumen micro-organisms. **68**, 365, 1992

Selenium
Selenium content of wheat for bread making in Scotland and the relationship between glutathione peroxidase (*EC* 1.11.1.9) levels in whole blood and bread consumption. **68**, 261, 1992

Serum cholesterol
Replacement of butter on bread by rapeseed oil and rapeseed-oil-containing margarine: effects on plasma fatty acid composition and serum cholesterol. **68**, 639, 1992

Serum lipids
Replacement of dietary fat with palm oil: effect on human serum lipids, lipoproteins and apolipoproteins. **68**, 677, 1992

Serum peptide
Chromium supplementation in impaired glucose tolerance of elderly: effects on blood glucose, plasma insulin, C-peptide and lipid levels. **68**, 209, 1992

Serum thyroid hormone
Alterations in endothelium-associated proteins and serum thyroid hormone concentrations in anorexia nervosa. **68**, 67, 1992

Skeletal muscle
Changes in insulin-receptor mRNA levels in skeletal muscle and brown adipose tissue of weanling rats during fasting and refeeding. **68**, 583, 1992

Small intestinal transit
Different effects of casein and soybean protein on gastric emptying of protein and small intestinal transit after spontaneous feeding of diets in rats. **68**, 59, 1992

Soya-bean beverage
Bioavailability of magnesium and calcium from cow's milk and soya-bean beverage in rats. **68**, 271, 1992

Stool bulking
The effects of ispaghula on rat caecal fermentation and stool output. **68**, 473, 1992

Substantia nigra
Changes in neurotransmitter levels associated with the deficiency of some essential amino acids in the diet. **68**, 409, 1992

Surgical stress
Impairment of cysteine synthesis from methionine in rats exposed to surgical stress. **68**, 421, 1992

Systolic blood pressure
Effect of casein, casein phosphopeptides and calcium intake of ileal ^{45}Ca disappearance and temporal systolic blood pressure in spontaneously hypertensive rats. **68**, 765, 1992

Temperature
The effect of environmental temperature and humidity on 24 h energy expenditure in men. **68**, 319, 1992

Thai schoolchildren
Effects of an iron supplementation trial on the Fe status of Thai schoolchildren **68**, 245, 1992

Thyroid hormones
In vitro lipid metabolism, growth and metabolic hormone concentrations in hyperthyroid chickens. **68**, 667, 1992

Tissue protein synthesis
Responses in tissue protein synthesis to sub- and supra-maintenance intake in young growing sheep: comparison of large-dose and continuous-infusion techniques. **68**, 373, 1992

Toxicity
Evaluation of the nutritive value of yellow rice in rats and broiler chicks. **68**, 573, 1992

Triacylglycerols
Effects of repeated gestation and lactation on milk *n*-6 fatty acid composition in rats fed on a diet rich in 18:2 *n*-6 or 18:3 *n*-6. **68**, 337, 1992

Tritiated valine
Valine oxidation: the synthesis and evaluation of L-[3-^{3}H]valine as a tracer in vivo. **68**, 139, 1992

True protein digestibility
True protein digestibility and amounts of endogen-

ous protein measured with the ^{15}N-dilution technique in piglets fed on peas (*Pisum sativum*) and common beans (*Phaseolus vulgaris*). **68**, 101, 1992

Trypsin inhibitor
Nutritional evaluation of the trypsin (*EC* 3.4.21.4) inhibitor from cowpea (*Vigna unguiculata* Walp.). **68**, 783, 1992

Undernutrition
Efficacy of massive oral doses of retinyl palmitate and mango (*Mangifera indica* L.) consumption to correct an existing vitamin A deficiency in Senegalese children. **68**, 529, 1992

Valine
Valine oxidation: the synthesis and evaluation of L-[3-^{3}H]valine as a tracer in vivo. **68**, 139, 1992

***Vicia faba* L.**
Nutritional outcome and immunocompetence in mice fed on a diet containing field beans (*Vicia faba*, var. minor) as the source of protein. **68**, 493, 1992

Vitamin A
Production of chickens with marginal vitamin A deficiency. **68**, 283, 1992
Effect of vitamin A deficiency and Newcastle disease virus infection on IgA and IgM secretion in chickens. **68**, 753, 1992

Vitamin C
Influence of ascorbic acid supplementation on copper metabolism in rats. **68**, 701, 1992
A study of whole-body isotope dilution of [^{14}C]ascorbic acid in guinea-pigs with graded ascorbate intakes. **68**, 711, 1992

Vitamine E
The influence of a fish oil high in docosahexaenoic acid on plasma liproprotein and vitamin E concentrations and haemostatic function in healthy male volunteers. **68**, 163, 1992

Voluntary feed intake
Effects of subcutaneous melatonin implants during long daylength on voluntary feed intake, rumen capacity and heart rate of red deer (*Cervus elaphus*) fed on a forage diet. **68**, 77, 1992

Weaning diet
The effect of weaning diet on the subsequent colonic metabolism of dietary fibre in the adult rat. **68**, 741, 1992

Wheat flour
Selenium content of wheat for bread making in Scotland and the relationship between glutathione peroxidase (*EC* 1.11.1.9) levels in whole blood and bread consumption. **68**, 261, 1992

Women
Differences in energy metabolism between normal weight 'large-eating' and 'small-eating' women. **68**, 31, 1992

Yellow rice
Evaluation of the nutritive value of yellow rice in rats and broiler chicks. **68**, 573, 1992

Zero-erucic acid rapeseed oil
Replacement of butter on bread by rapeseed oil and rapeseed-oil-containing margarine: effects on plasma fatty acid composition and serum cholesterol. **68**, 639, 1992

Zinc
Influence of low dietary lipid content on anorexia and [^{14}C]glucose uptake in the intestine of zinc-deficient mice. **68**, 505, 1992
Erythrocytes, erythrocyte membranes, neutrophils and platelets as biopsy materials for the assessment of zinc status in humans. **68**, 515, 1992
